

I would like to inform you that I listen to K-love on a daily basis. It is the only radio station I listen to. It inspires me and helps me stay focused on my Lord and Savior through out the day. Now a days you need some uplifting in a world that has no hope, has violence, etc... My children also benefit from it. They sing along with the songs. I have even gone into a local hobby store and they have k-love playing on the overhead speakers to inspire and make people feel inspired and have a little hope. The service needs to continue for me, my family, my friends and for the communities to give us a inspiring, hopefull, peaceful time to listen and know that in the midst of trials or in a world that carries little hope, we can call on His name and be encouraged and have peace in our hearts and minds. Thank you!
